Sandro Fernandes

Digital Product Designer

I admire simple but elegant visual designs, have a deep interest in design systems, and I'm also a front-end enthusiast.

Ric

I'm Sandro, a human being based in Portugal, with a blend of northern Portuguese and Mozambican roots. I find joy in life's simplest treasures, cherishing moments with family and the serenity of nature.

With over a decade of hands-on experience, I've shaped websites, mobile apps, and web apps. Yet, I don't dwell on design processes or endless research for the sake of it; I'm focused on delivering results.

I firmly believe that true progress emerges when collaborating with others. For me, it's all about understanding the core project goals and the real-world jobs to be done. I favour cutting through the fluff and get straight to what matters.

My design philosophy is simple and pragmatic – learn and improve by doing, and ship products that can be used. I thrive on putting ideas into practice with precision, crafting seamless and user-focused experiences. All of this while working in a fun and creative environment where everyone can learn and is not afraid to fail.

Experience

2021-Present

Lead Product Designer

Talkdesk

2019-2021

Product Designer

Critical TechWorks - BMW Group
